Image Replacement SOP — The Accident Guides

Purpose

- Replace placeholder images with real stock images without editing HTML, CSS, or JS.
- Ensure consistent branding and professional appearance across all pages.

Rules

- Do not rename files.
- Do not change folder structure.
- Only replace files inside /assets/images/.

Steps

- Download approved royalty-free images.
- Rename images exactly to required filenames.
- Replace files in /assets/images/.
- Commit changes and allow Cloudflare Pages to redeploy.
